

Self-Hosted Enterprise Document & Media Management - MVP

Demo Report and Evidence Pack

Intern: Jatin Paul Singh | Assigned by: Natobotics

Purpose

This document combines the demo script, implementation evidence, and screenshots captured during the Dockerized MVP demonstration. It is intended as a single supporting document for the project submission.

Demo Summary

Area	Evidence
Authentication	Employee, CEO, and Auditor test accounts were used during the demo.
File upload	A PDF was uploaded through the portal; duplicate content was rejected while the selected PDF remained valid.
File operations	Rename, Move, Download, Share and management actions were demonstrated.
Organization hierarchy	CEO view showed Chennai with Human Resources and Information Technology; London was also configured.
Access control	CEO Security screen showed Global access, View, Download, Edit, and Manage as Allowed.
File sharing	CEO shared a PDF with an Auditor using Can View; the Auditor received it in Shared Files.
Infrastructure	Docker Compose, MySQL health, backend API health, and database migrations were verified separately.

Demo Flow

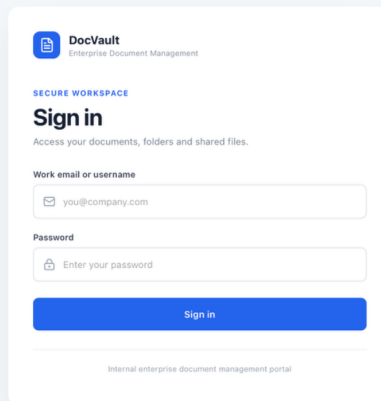

Login -> Employee -> My Files -> Upload -> Duplicate Detection -> Rename -> Move -> Download -> Logout -> CEO -> Security -> Locations -> My Files -> Share -> Auditor -> Shared Files

Recommended spoken introduction

This is the Self-Hosted Enterprise Document & Media Management MVP. The system provides an internal portal for storing and managing documents and multimedia files. I will first demonstrate the Employee workflow, then the CEO management workflow, and finally controlled file sharing with an Auditor account.

1. Login - Employee entry screen

Starting point for the demo. The portal presents the DocVault enterprise document management login screen.

The image shows a login screen for DocVault Enterprise Document Management. The screen is white with a blue header. The header contains the DocVault logo and the text "Enterprise Document Management". Below the header, the text "SECURE WORKSPACE" is displayed in blue. The main heading is "Sign in" in bold black text, followed by the subtitle "Access your documents, folders and shared files." in a smaller font. There are two input fields: "Work email or username" with a placeholder "you@company.com" and "Password" with a placeholder "Enter your password". A blue "Sign in" button is located below the input fields. At the bottom of the screen, the text "Internal enterprise document management portal" is displayed in a small font.

2. Employee - My Files

Employee is authenticated and viewing the file browser, folder tree, and available files.

3. Upload dialog - destination and duplicate handling

The upload workflow requires a destination folder and shows duplicate-file rejection. A valid PDF remains selected for upload.

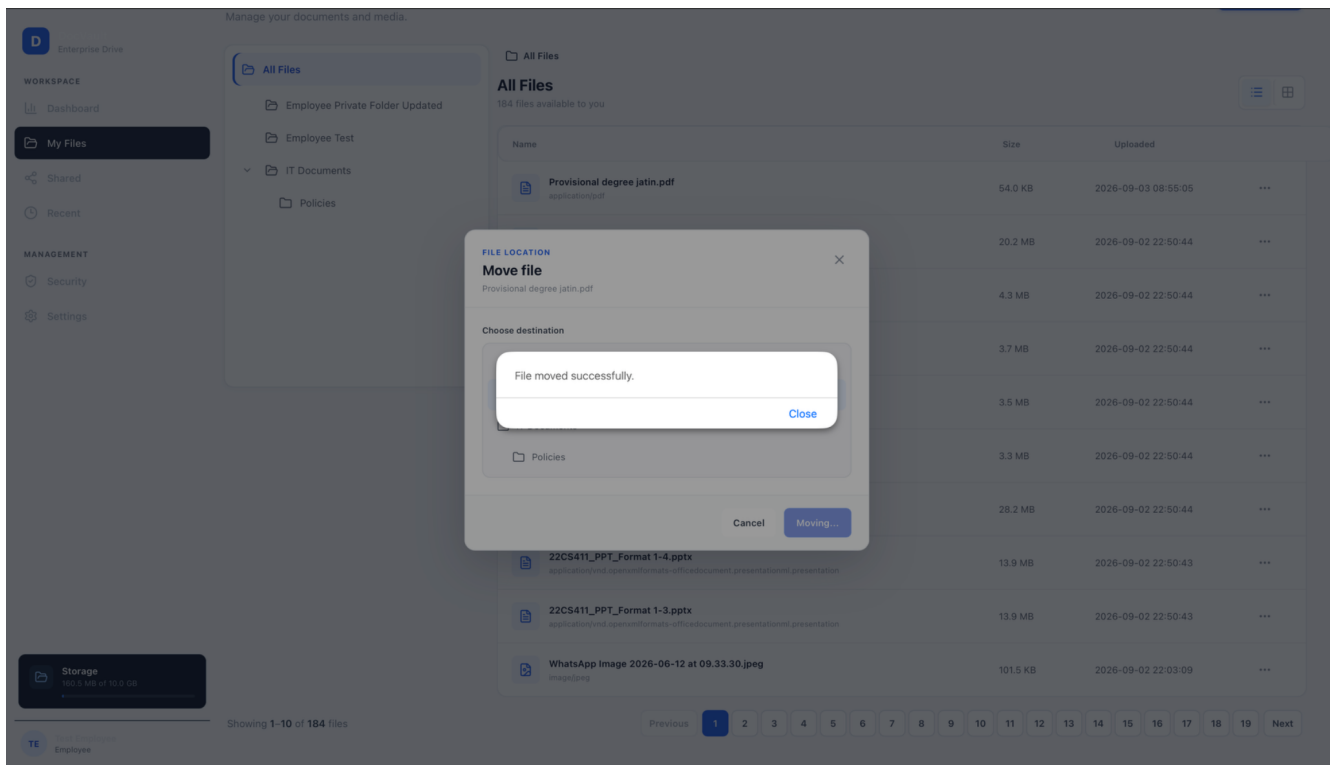

4. Rename file

File rename dialog for changing the display name of the uploaded document.

5. Move file - success

The application confirms the file was moved successfully to an allowed destination folder.

6. Download proof

The browser download list shows the PDF downloaded successfully from the application.

Self-Hosted Enterprise Document & Media Management - MVP

Page 8

8. CEO - Security and access control

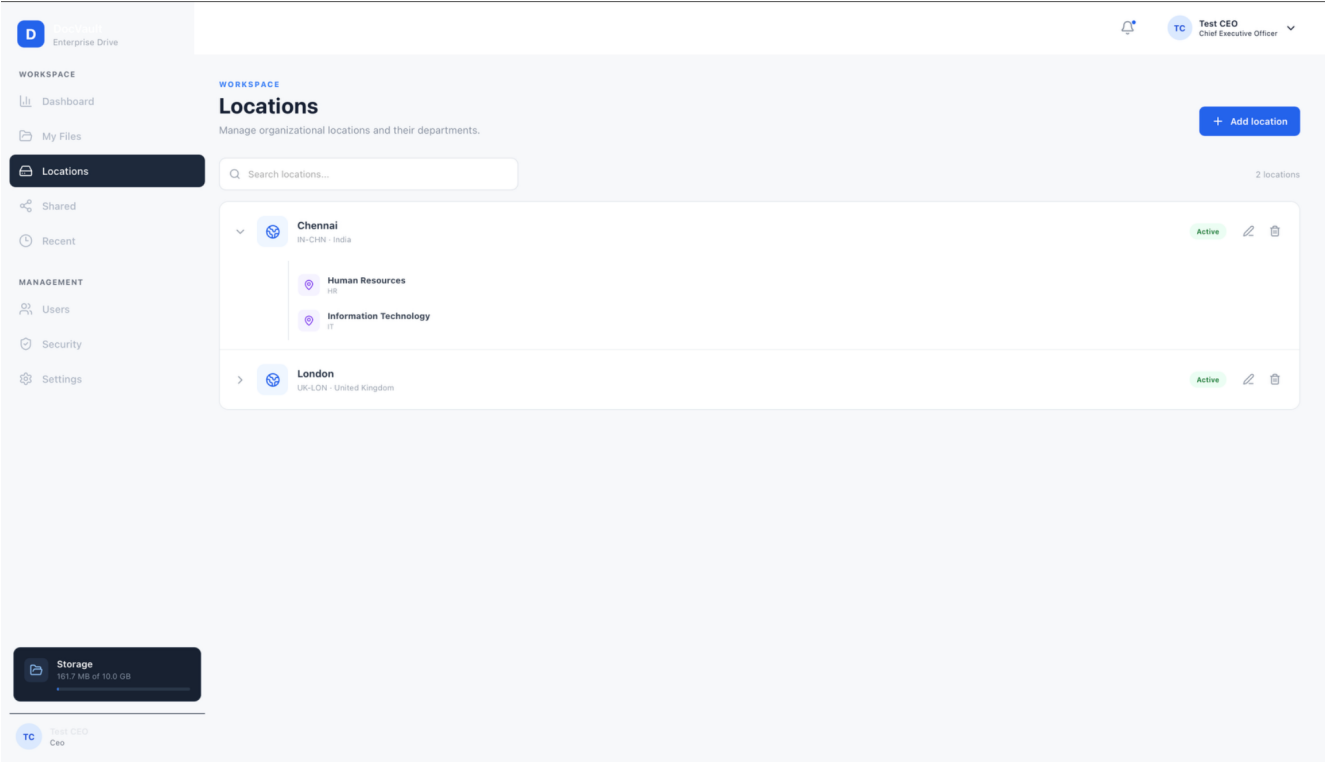

The security page shows global access, view, download, edit, and manage permissions as allowed for the CEO account.

The screenshot displays the 'Enterprise Drive' interface. The left sidebar shows 'WORKSPACE' (Dashboard, My Files, Locations, Shared, Recent) and 'MANAGEMENT' (Users, Security, Settings). The main area is titled 'My Files' with a sub-header 'Manage your documents and media.' Below this, a folder tree shows 'All Files' containing 'Employee Private Folder Updated', 'Employee Test', 'IT Documents', and 'Policies'. A 'SHARING' modal is open for the file 'Provisional degree jatin.pdf'. The modal includes a 'Share with' search bar, a list of users with roles (System Administrator, Test Auditor, Test Country Head, Test Department Head), and two permission options: 'Can view' (Read-only access) and 'Can edit' (View and modify). The background shows a file list table with columns for file name, size, and upload date.

9. CEO - Location and department hierarchy

Chennai expands to Human Resources and Information Technology, demonstrating location-to-department hierarchy.

10. CEO - File management menu

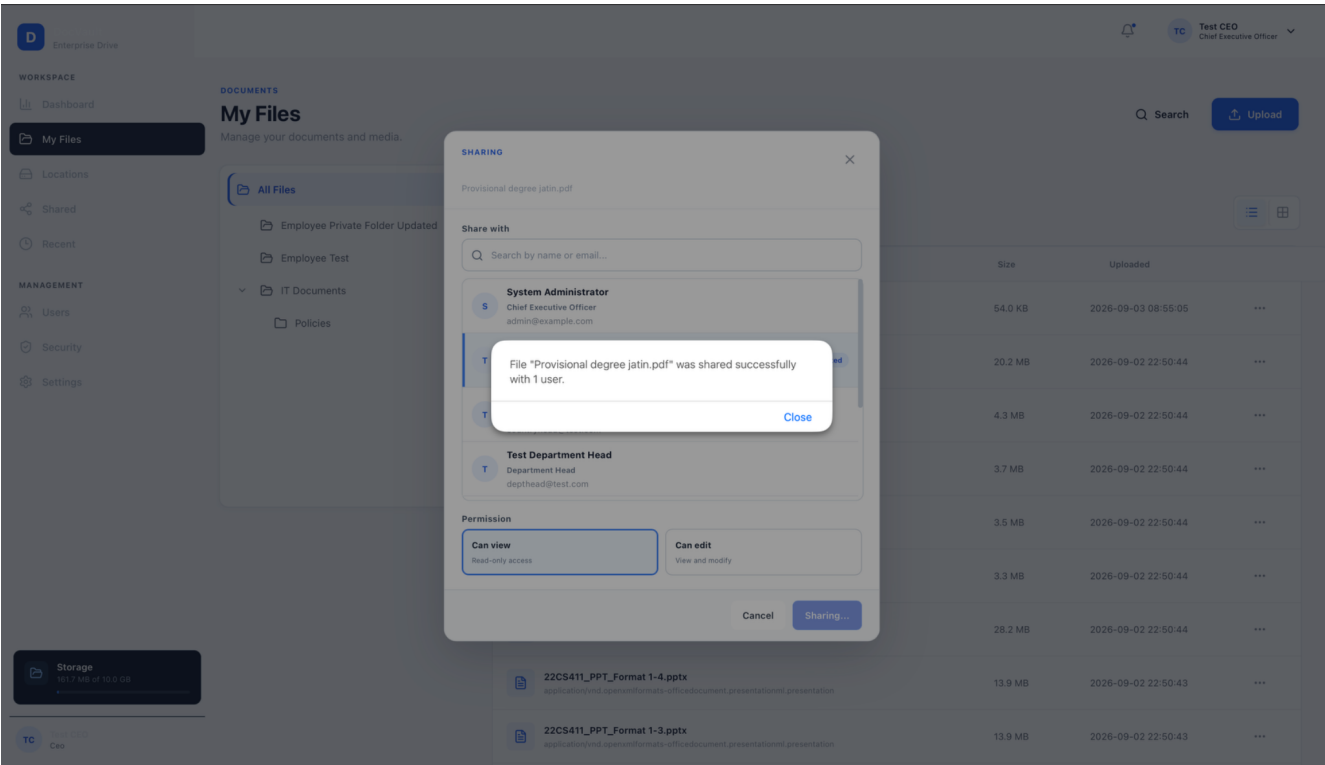

CEO can access Download, Rename, Share, Move, and Delete actions for a file.

The screenshot displays the 'My Files' section of the Enterprise Drive interface. On the left, a sidebar contains navigation links for 'Workspace' (Dashboard, My Files), 'Locations', 'Shared', 'Recent', and 'Management' (Users, Security, Settings). The main area is titled 'My Files' with the subtitle 'Manage your documents and media.' Below this, a 'Documents' section lists folders: 'All Files', 'Employee Private Folder Updated', 'Employee Test', 'IT Documents', and 'Policies'. The 'All Files' folder is selected, showing a list of 191 files. A file management menu is open over the first file, 'Provisional degree jat.in.pdf', displaying options: 'Download', 'Rename', 'Share', 'Move', and 'Delete'. The bottom of the interface shows a 'Storage' status bar indicating 161.7 MB of 10.0 GB used, and a user profile for 'Test CEO' (Chief Executive Officer).

11. CEO - File sharing success

A file is successfully shared with one user using the selected view permission.

12. Auditor - Shared Files

The Auditor account sees the shared PDF in Received files with the permission shown as Can View.

Demo Script - Step by Step

1. Start the application

Run docker compose up -d, confirm the containers are healthy, and open <http://localhost:8080>.

2. Employee login

Sign in as Test Employee. Show My Files and the available folders.

3. Upload

Open Upload, choose a permitted destination such as IT Documents, select a small test PDF, and upload it.

4. Show duplicate protection

Point out the rejected duplicates in the upload dialog and explain that the system prevents duplicate content from being uploaded.

5. Rename, move, and download

Rename the document, move it to an allowed folder, then download it and confirm the file opens.

6. CEO login

Log out and sign in as Test CEO. Show the Security page and organizational locations/departments.

7. CEO file management

Return to My Files and show the management actions available for the file.

8. Share

Share the PDF with Test Auditor using Can View.

9. Auditor

Log in as Test Auditor, open Shared > Received, and open the shared PDF.

Known Limitation for This Evidence Pack

The captured demo does not include a direct API-level 403 screenshot for an Employee attempting to access a resource that is provably outside the Employee scope. Do not claim that specific test as demonstrated unless it is executed and recorded separately.

Final Submission Checklist

- Working frontend and backend MVP
- Dockerfiles and docker-compose.yml
- Jenkinsfile
- Terraform folder and configuration
- Root README.md
- Demo recording or live walkthrough
- Supporting screenshots / evidence
- Known limitations documented
